San Antonio, TX – Custom Insurance Solutions (CIS), developer and marketer of software solutions specifically designed for Managing General Agents and Wholesale Brokers, is proud to announce it has achieved Platinum Membership (the highest level of integration available) in the ImageRight Business Alliance (IBA). ImageRight provides document management and workflow solutions targeted specifically for the insurance industry.

CIS's flagship product, the **Agency Information Manager**® (AIM), a full-feature agency management system, offers this high-level of integration with ImageRight. AIM is able to provide a seamless user experience when using the systems together. An example of this integration includes: with a single AIM keystroke, the ImageRight file folder related to any policy can automatically appear in the ImageRight desktop. In addition, AIM is able to "drop-print" reports and file correspondence directly into the ImageRight system, and initiate ImageRight workflow tasks.

"We are honored to be a member of the ImageRight Business Alliance (IBA), more importantly we are proud to hold the title as the first *Platinum* business partner in our marketplace," said Patrick M. McCall, Director of Sales at CIS. "We have a number of our customers that are benefiting from the productivity and efficiency gains associated with our high level of integration with ImageRight".

Skip Morris, Vice President of Marketing at ImageRight, states, “ImageRight is pleased to partner with leading Insurance industry solution providers to support the client’s business objectives. As a single-source solution provider, we do not use third parties or resellers. However, ImageRight’s Business Alliance supports the integration of the ImageRight and CIS solutions to effectively support the daily end-user information requirements. We are very pleased to have CIS as the first Platinum business partner in the IBA.”

*Custom Insurance Solutions (CIS) develops and markets software solutions specifically designed for the wholesale brokerage and managing general agent. CIS is a full service software development firm specializing in the design, development, and implementation of custom business solutions. In 1996, CIS released our first complete software application framework for the Insurance industry: **Agency Information Manager**®. CIS has used this framework to accelerate the construction of a variety of custom solutions for our Insurance clients. Today, CIS offers both packaged and custom technology solutions for the Insurance industry.*
